Immigration Visit Information

Immigration visits are \$300 and included the examination, tuberculosis test, blood drawing and initial form completion. Immigration visits are not reimbursable by any insurance carrier as there is no applicable CPT code to bill your insurance carrier. Please note that replacement forms are available for an additional fee.

Any other services are billed separately and are not part of the immigration services. You will be invoiced directly by the laboratory for any blood tests. You will be invoiced directly by radiology for any radiology services.

Vaccinations may be billed to your insurance carrier as a courtesy. If they are not covered, they will be invoiced to you directly. Please note that Magnacare and GHI do not cover preventative vaccinations and you will be required to pay for vaccinations at the time of service.

Immigration visit requirements		Blood tests	
Examination	\$300	Syphilis (RPR)	43.61
TB test (PPD reading & placement) included in fee		Mumps	59.43
Blood drawing fee included in fee		Measles	131.67
Chest xray if PPD is positive	\$100	Rubella	147.14
Vaccinations		Vaccinations	
Influenza vaccination	\$87	MMR	\$156
Tetanus and diphtheria	\$97	Varicella	\$217

Please note the above referenced costs are estimates and subject to change based on vaccine availability and costs.

I have been informed of the above information.
